

ELECTRIC WATER HEATING DELUX VENTED

The Delux Vented water heaters are ideal for use in light commercial or domestic applications where supply to a single sink is required for light hand/dish washing.

Available in over and under sink models and supplied with the accessories required for installation. These accessories must be used as they act as the vent for water expansion and prevent the unit being pressurised.

- 5 Litre storage capacity
- Vented point of use water heater
