

## HAND DRYER

# VAYDA ELITE

Ultra High Speed

VE1100W

VE1100G

VE1100B

The Vayda Elite is a stylish all-purpose, energy efficient eco hand dryer. It offers an impressive drying time of 8 seconds and is ideal for use in high footfall areas. Ultra high speed, dual blade airflow improves overall drying performance, this superb commercial hand dryer is suitable for any washroom.

The Vayda Elite includes a built-in high quality HEPA filter providing a purer air flow whilst preventing dust from entering the machine.

**Economically friendly** With the ability to turn off the heating element via a hidden switch behind the casing, the Vayda Elite can operate at just 550W making it very energy efficient whilst maintaining its fast drying time.

We recommend changing the HEPA filter every 6-12 months depending on dryer usage. HEPA filters are available to order separately.
